

Will Soon Be Ready To Examine Recruits Sheriff Can't Serve

Blanks Received and Board Held Preliminary Meeting While Awaiting Successor To Sheriff McCloskey

FIRST CALL LIKELY BY END OF THE WEEK

The blanks for use of the exemption boards arrived in Clearfield yesterday. Following receipt of these and other documents Messrs. McCloskey, Stewart and Dyer of the local board, held a brief session and talked over plans for the work.

Sheriff McCloskey announced to the other members his ineligibility under the law, and as no successor had been named not much business was transacted.

The Sheriff said that while he would have been glad to serve he appreciated the escape from the exacting duties of exemption board membership. The board has no idea who his successor may be. John M. Bain will be clerk to the board.

Dr. Jackson of Oseola, of District No. 3 was present, and took part in the discussion as to the plans and duties of the boards. The rule regarding the age limit of members of the board applies in equal measure to all extra examining physicians and it is going to be some job getting the recruits examined. The doctors will not be expected to work for nothing, however, as under the draft law they will receive four dollars for examining the first ten men and ten cents apiece for each additional man.

Local registrants have requested the board to employ no one armed physicians.

The official notice for men who are to appear for examination are headed: "Notice to Call and to Appear for Physical Examination." After the name and address of the registrant the notice adds:

"You are hereby notified that pursuant to the act of Congress approved May 18 1917, you are called for military service of the United States by this local board from among those persons whose registered cards are within the jurisdiction of this local board." Then follows the serial number of the registrant and the order in which it was drawn. The notice also sets the time and place for the examination.

Further instructions provide that "Any claim for exemption or discharge must be made on forms which may be procured at the office of the local board, and must be filed at the office of this board on or before the seventh day after the date of mailing of this notice." The attention of the registrant is called to the penalties provided for violation of the act. That there might be no mistaking on this score, the section of the act relating to penalties is printed on the reverse side of the form.

The Exemption Blanks

Two blanks are provided for application for exemption. One is to be used in personal application and the other by some person dependent upon the registrant in question for support. Under this classification come, first, a married man with wife or child dependent upon his labor for support; second, son of a widow dependent upon his labor for support; third a son of aged or infirm parent or parents dependent upon his labor for support; fourth, a father of a motherless child under 16 years of age dependent upon his labor for support; fifth a brother of child (or children) under 16 years of age with neither father nor mother and dependent upon his labor for support.

Occupations on which exemption may be applied for as listed in the form, read as follows: A county or municipal officer; a custom house clerk of the United States; a person employed by the United States in the transmission of mails; an artificer or workman employed in an arsenal, armory or navy yard of the United States; an employee in the service of the United States necessary to the adequate and effective operation of a department commission, board, bureau, division or branch of the government; a licensed pilot; a mariner actually employed in the sea service of a citizen merchant within the United States.

Another form is designed to cover cases where a registrant is temporarily physically deficient. When this blank, which excuses the registrant

from immediate military duty, is filed out by the board, a time limit is set in which the holder must return to district headquarters for re-examination. If the temporary physical disability is still in evidence, the board may grant another reprieve.

The surprise of the official record is the fact that the missing number indicated by the drawing of a blank capsule as number 10,004 was located as serial number 5794. It was placed last in the master sheet and becomes liability number 10,500. Number 2780, drawn as No. 10,498 was found to be duplicated and was stricken out.

When the official record was finally completed it was found that there had been six errors made in the first report of the drawing which affected registrants in District No. 1. These drafted but whose numbers were not published on account of the errors mentioned are as follows: 2695 Sinfelt, John Carl, Munson 1179 Mariano, Petricia Clearfield 1121 Bailey, Joseph Paul, Clearfield 1143 Fetzer, Andrew Sylvester, Cld. 570 Cocciatto, Vittalonia, Clearfield. 538 Gisewhite M. Roy, Clearfield.

Following are the new army regulations as to height, weight and chest measurements:

73 and upward	2 24

To be acceptable men below six-four inches in height must be of good physique, well developed and muscular.

Three Ohio Socialists Sentenced To Prison

Most Prominent Men in State Bod. Convicted of Assisting Slackers

(By United Press) Cleveland, Ohio, July 25.—Three Ohio Socialists, prominent in the national party were sentenced in Federal court today to serve one year in the work house for aiding a "slacker" to escape registering for the draft army. They are C. E. Ruthenberg, Socialist candidate for mayor of Cleveland; Alfred Wagenet, state secretary of the party and Charles Baker, state organizer.

LET IT TO THE IRISH

London, July 25.—Ninety odd Irishmen met behind closed doors today to undertake settlement of the Irish question. The meeting represented the most striking efforts ever made to dispense of the issue, and is believed to offer greater hope than any previous one since it is in the hands of the Irish themselves.

Secretary of War Baker, Blindfolded, Takes First Number in Draft

Secretary of War Baker, in the presence of General Crowder and members of the Senate and House military affairs committees, drew the first number of the great draft when he took out from the box the first black capsule. It was number 258.

Sixth Day Of German Drive Is Futile

Ladies Highway Continues To Be Objective Of Prince's Army

(By United Press) Paris, July 25.—Once again French troops fought back powerful German attacks last night against the Calvario plateau—the sixth successful night in which the Germans have vainly tried to penetrate through to the Lady's Highway.

"The Germans bombarded violently and launched an attack at five o'clock against the French gains yesterday, the war office statement said. The French strengthened our gains. Around Hurtetbise and Cornillet German attacks were fruitless.

A REAL WAR BRIDE

The grizzled war god Mars had to lower his colors to chubby little old Dan Cupid yesterday afternoon when Harry E. Thompson, of Elizabethtown a member of Co. L of the Eighteenth Regiment N. G. P., and located as a guard at Shawville tunnel for some time, in company with Miss Stella B. Shaffer, of Curwensville, hid themselves to the paragonage of Trinity M. E. church and had Rev. W. W. Hartman pronounce the fateful words which made them man and wife. The young couple were unattended, the only witness to the ceremony being the bride's mother.

ANOTHER SHAKUP COMING

(By United Press) Washington, July 25.—There is to be one more big reorganization and then Uncle Sam will settle down to complete his first year of the war program. President Wilson is preparing to announce changes in the present Council of National Defense.

A WAR MESSAGE

Washington, July 25.—America must give her all if she would turn the war fortune in Europe. That is the solemn emphatic message the returning officers bring back from there. A dead-lock is the only thing in sight on the western front. They have reported to the war college that the outlook is anything but optimistic and privately they say that the United States wants to awaken right now or the Germans will be the virtual victors. The Russian situation they said is practically hopeless. With Germany calling out more men for next spring the officers think that America must realize that the war will be long and bitter and that money and men must be given unstintingly.

COLBY NOMINATION HELD UP

Washington, July 25.—Bainbridge Colby's nomination as a member of the Shipping Board was held up today by the Senate Commerce Committee at the request of the two New York senators pending investigation. The committee reported favorably the nomination of Edward Hurley to be chairman of the Shipping Board. Senatorial gossip paid attention to Colby's alleged political hitch. The New York senators will be consulted as to his status.

Thirty Day Dry Drive For Western Penna.

Automobile Tour Planned by Heads of Movement For Dry Nation

(By United Press) Harrisburg, July 25.—Prohibition state chairman B. E. Prugh today announced that the state committee will conduct a thirty days' drive for "permanent nation wide prohibition" in Western Pennsylvania starting September 6. Dr. Prugh and E. W. Crotchiwell of California, will make the tour by automobile. One or more speeches will be made each day until October 5. The week starting September 6 will be spent in Allegheny county. Eleven other counties will be visited later.

BOTH LOST THE RACE

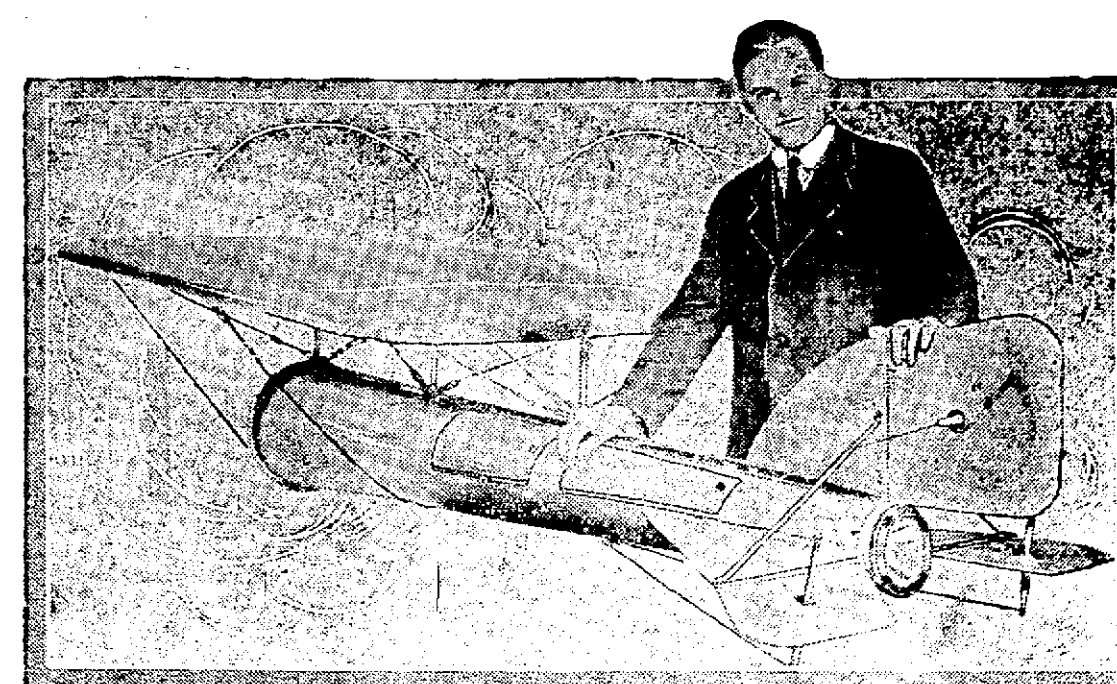

A couple of local young men who had their "daddys" cars out for an airing yesterday afternoon decided on a little speed brush in order to demonstrate the abilities of their cars. They were unfortunate in selecting their race course and in consequence both lost a \$10 fine and costs. The matter was called to the attention of the Burgess and police by citizens who witnessed the contest and the young men were given until tomorrow afternoon to settle.

When they dashed past the postoffice it took just three people to see them. The first fellow to say "here they come!" the second, "here they are," and the third "there they go," and they were going some you bet.

An Airplane Torpedo to End the War

G. F. Russell has just offered the government an invention, which, if successful, will have a remarkable effect on the fighting in Europe. He insists he has discovered a method of sending torpedoes through the air from the ground or from an airplane. These he says can be controlled by wireless so they will drop on the spot picked out.

GREAT INCREASE IN RECRUITING THRU NATION

Chicago Reports Increase Of Over Seventy Per Cent. and New York Fifty Per Cent.

MARINES IS CHOICE OF MEN

(By United Press) New York, July 25.—American men are rushing into war service. Unprecedented enlistments in the army, navy and marine corp is sweeping the country. Men whose names are way down the master list who believe they will not be called into service soon are enlisting. The first rush began immediately after draft day. Reports gathered by the United Press today showed a gain in recruiting everywhere. In addition to men who are away down the list men who are the first to be called are volunteering in order that they may select the branch of service in which they will fight. During the past two days 333 men have volunteered, been examined and sent to Fort Slocum, New York. In New York this is an increase of 50 per cent. In addition to those accepted there have been many more applicants and many more still coming. Colonel Walsh in charge of the recruiting said, "Chicago reports 300 during the past two days, an increase of 70 per cent. Enlistments in the marines has increased 400 per cent. Milwaukee reports a score who want to join the National Guard. Their guard quota is filled, however, and new companies will have to be formed if the men are accepted.

Thursday Visitors Day at Camp Bonarr.

Special Program of Athletics And Aquatics For The Day

Thursday, the 26th, is visitors' day at Camp Bonarr where thirty-five boys from the Young Men's Christian Associations of Punksutawney, DuBois and Clearfield are encamped. The weather has been delightful for this outing and everyone seems to be having a splendid time. The general health of the boys has been good. Sunday was a day much enjoyed by all the campers. Dr. Reeve addressed the boys and leaders in the late afternoon and this brief service is one of the new features with this year's camp was heartily appreciated.

A number of boys have already learned to swim and the aim is to teach all to swim before camp is over. Life saving is being taught to the older boys.

Parents and friends are cordially invited to spend Thursday at camp at which time a special program of athletics and aquatics is being given.

MILITARY DANCE A SUCCESS

The military dance given at The Dimeling last evening under the auspices of Company L, of the Eighteenth Regiment was a highly successful affair. More than one hundred couples enjoyed the hospitality of the soldier boys and gayly tipped through the seductive mazes of the terpsichorean art. The hall room presented a real military aspect. Old Glory occupied the place of honor throughout the hand some assembly hall, while rifles and soldiers' trappings generally adorned the walls, the spick and span uniforms of officers and men adding the real finishing touch to the scene. Weiler's Phippsburg orchestra furnished the music.

FAREWELL ENTERTAINMENT

About fifty of the friends of James Young who was home on a three day furlough from Indiana gathered at his home on McBride street last evening and tendered him a most splendid party.

Plenty of gayety was had by all. Dancing, games and music helped the young people enjoy a most delightful evening.

Delicious refreshments were served which added much to the pleasure of the evening.

100,000 MEN TO BE IN EUROPE BY XMAS

Balance Of Big New Army Will Be Sent So That 600,000 By September 1918

WE FACE LACK OF TRANSPORTS

Washington, July 25.—Six hundred thousand Summies is the largest number the United States can send abroad before September 19 1918. This was stated semi-officially today. It was also declared that 100,000 men will be the number in Europe by January. The first of the new national army can scarcely be in camp before October 1 at the present rate of camp construction.

It takes practically one year to turn a civilian into a good soldier. Hence the second section of the new national army will not be called on before next summer it is believed. Lack of shipping facilities with which to move the troops across the Atlantic is the reason for the pessimistic outlook.

He explained that he could not continue to serve because he was in full accord with Denman in all matters during the controversy.

Last Chance To Buy Chataqua Tickets

Committee Will Complete Their Sales Tomorrow Afternoon

This statement is made in good faith. Thursday noon closes the sale of season Chataqua tickets. After that time you will pay the regular admissions at the gate; thirty cents for the afternoon performance and fifty and seventy five cents for the evening program. If you buy a season ticket the cost is about fifteen cents a performance!

The town was divided into twenty-five districts, and fifty sellers canvassed the territory to give everyone in town the opportunity to buy. Our contract, backed by over one hundred of the leading men and women of the town, obliged us to sell \$1500 worth of tickets. If we sold that amount, twenty-five adult tickets were to be given to the committee, and the \$50 realized from the sale of these would go to the Chataqua organization of Clearfield. Monday evening the returns showed a sale of \$1446 and up to the hour this copy goes to press, the amount reaches the quota of \$1500. That means that the only available tickets are the twenty-five as a bonus for the Clearfield committee of Chataqua. These will be quickly sold, and pursuant to the action of the committee, this money will be given to the guarantors of three years ago who had to pay \$10.40 each on account of the failure of the ticket sale reaching the contract amount of \$1500. We are glad to return this money to the ones who stood by the Chataqua the year it failed to reach the required amount of ticket sales.

We wish to thank everyone for their assistance in making the sale this year such a success, especially Mrs. Augustus Krutzer, chairman of ticket selling committee. The few tickets yet unsold are all that will be sold, and it should happen that on Thursday noon there are some unsold. They will be cancelled, and not sold. We believe, however, that by tomorrow no tickets will be obtainable. Buy at once.

T. C. REEVE, Pres. Clearfield Chataqua

THE LIBERTY BONDS AND THE FARMER

It has been repeatedly pointed out that in purchasing Liberty Bonds the farmers of the United States were furnishing the means to their best customers to purchase the products of their farms. Much of the proceeds of the Liberty Loan, both that used by the United States Government and the amount loaned the Allies, is to be expended in purchasing food and supplies for their armies from the farmers of the country. There are other reasons however that make the Liberty Loan Bonds especially desirable investments for farmers.

A safe investment is particularly suited to a farmer because he is in most instances at a distance from bond markets and not in position either to know of or immediately act upon information of matters affecting the value of bonds. The Liberty Loan Bonds are invincibly safe, backed as they are by the resources of the richest nation in the world and the faith and credit of a people who have always respected their obligations, and they are of stable value and liable to little or no fluctuations in market value.

The farmer is a busy man and often has neither the time nor the opportunity to study the questions of finance and bond values. The Liberty Loan Bond being a bond about which there can be no question, he can rest assured always that he has made no error in judgement.

The farmer often feels the need of ready cash before the harvesting of his crops. The Liberty Loan Bond puts in his hand a security on which he can always borrow money and at a rate as low or lower than he could borrow on any other security and with less trouble.

There is another aspect of this investment in Liberty Loan Bonds that will appeal to every true American. He is supporting the Government, he is supporting our soldiers in France and he is doing his duty as a citizen when he invests in Liberty Bonds.

AS TO THE AVERAGE WOMAN

"If the average housewife would only take the time to study scientific house management it would be of vast benefit to the country."—One of the Conservationists.

She's out of bed by half past six; she sees the children dressed;

She cooks the old man's ham and eggs, and gets his trousers pressed;

And when at last he's off to work she dusts and sweeps and mends

And toils around the house till twelve, at sundry odds and ends.

Then lunch, three hungry mouths to feed, and then a trip down town

To save deliveries and keep the cost of living down.

Then dinner time, then darning socks, without a moment's pause;

Too bad she has no time to learn economic laws.

With clothes to make and meals to plan and ailing kids to mind,

And schemes to feed the family and not to get behind.

With butcher's bills and baker's bills and grocer's bills to pay,

And youngsters wearing out their shoes, or something every day,

With jam and jelly to put up against the winter's need,

And plants to hoe and dig and spray, and garden beds to weed;

Too bad she hasn't time to glean the latest information

Loans When You Need Them

Business men must have a bank that is, at all times, able to lend them their needs.

The County National Bank keeps its funds in such shape that it is always in a position to make advances to its customers as required.

The borrowing ability of any customer up to the limit set by the banking laws, is determined only by his worthiness of credit, and the value of his account to the bank.

The accounts of business men are invited.

That science offers housewives on the laws of conservation!

At night with all the kids abed, she frets her troubled soul About the lacking wherewithal to get the winter's coal. For on the average salary that's paid the average man To keep a household clothed and fed takes many a scheme and plan.

Yet cheerfully she goes along throughout each busy day And usually by Christmas time there's something laid away—

A little something in the bank, the load of debt to lift; Too bad she hasn't time to learn of scientific thrift!

TWO CHAMPIONS WHO WILL FIGHT FOR TITLE

JOHNNY KILBANE

BENNY LEONARD

Benny Leonard, champion lightweight of the world, and Johnny Kilbane, champion featherweight of the United States, will meet July 25 for the lightweight championship of the world at Shibe Park, Philadelphia. The park is the home of the American league baseball club of that city. Each in to weigh in at 135 pounds at the ringside and each will receive \$10,000 for the six rounds. If Kilbane knocks out Leonard he will win the lightweight championship. But if Leonard knocks out Kilbane he will win nothing but money and honor.

Second Crop National Guard Called at Once

Will be Given Intensive Training at Armories Until Camps Ready

Washington, July 24.—The United States tomorrow will call out its second group of National guard for intensive training. Twenty states including New England a former foe of the south, will respond to the call. The guardsmen will be held at their armory or at the state concentration camps until the southern camps are ready, as there is still much work building wooden kitchens and mess halls and the like—some of the troops at least will not get south for a month. None of the first guardsmen called out have moved yet, but it is believed they will move next week.

How It Feels To Fight A Sub By One Who Tried It

What it means to sustain and foil submarine attacks has been picturesquely described by an American sailor who has been through the experience. I give his own written words as they appeared in a letter from "A Port in France."

"On the afternoon of Tuesday, June 26, we of the gun watch who were not on duty were standing by or sitting reading the guns.

"It was exactly 1:35 o'clock when from the foretop lookout came the shrill cry of 'Wake, ho! Submarine, sir!'

"The officer on the bridge immediately replied, 'Where away?'

"Broad on the starboard beam, sir," was the answer.

"The officer of the deck uses his glasses, bawls an order. The feeling of tiredness leaves the idlers around the guns. The gong rings for general quarters, the bugle calls every man to his station, and in ten seconds every man is at his post, the guns loaded and trained.

"While this is going on the ships spread out in the form of a Chinese fan, a destroyer at each end of the fan and another destroyer and our ship at the apex or head. The submarine is somewhere below us, submerged at around thirty feet.

"There is an order that fairly crackles, a hiss and a destroyer drops a depth-bomb from her stern. It is set for sixty feet and goes down like a lump of lead.

"Boom! There is a muffled roar from under the waves. We shake and quiver from the concussion.

We Came, Saw and Sank

"That is all. Then the destroyer runs up her signals to the admiral's

flagship, 'we hope we got her.'

"Of course, no man was nervous—that is, he didn't admit he was, but one man remembered owing a half a dollar and wanted to square the debt before he 'went.' Another reached for a piece of hardback he had stowed in his blouse and nibbled away at it while awaiting orders.

"Keeping a sharp lookout while we circled the spot, we were finally rewarded by seeing the bubbles of air and oil which soon covered the sea all around us. Planking such as is used in between the layers of submarines also rose to the surface in quantities. We added another version to the old saying of 'Veni, vidi, vici.' The Liberty boys can honestly say: 'We came, we saw, we sank!'

"And so clearing the sea before and aft, we landed the first expeditionary force of thousands of men safely 'somewhere in France.'

"The letter will give an example of the high class of men in the American Navy, a fact that was remarked on all sides during the recent visit of the sailors to Paris. To my own knowledge some of the latest additions to the ranks of our sailors who have enlisted as ordinary seamen include Harvard, Yale, Princeton and Cornell graduates.

TO ADD TO FIGURES

War Department Likely to Send 1,000,000 Men to Europe as Soon as They are Ready

Washington, D. C., July 24.—Plans worked out in Congress for raising war revenue were overturned today by announcement of forthcoming additional estimates for war expenditures aggregating more than \$5,000,000,000, principally in anticipation of assembling a second army of 500,000 men under the selective draft.

Secretary McAdoo, at a special meeting of the Senate Finance committee, revealed that the war department alone is preparing estimates to cover additional expenditures of nearly \$5,000,000,000, and asked the committee to hold up the \$1,670,000,000 war tax bill until the detailed estimates of all departments are submitted. The committee agreed to the request and pigeonholed a report on the measure which it had planned to submit today.

The new estimates, including \$500,000,000 additional for the Shipping board and \$100,000,000 for the navy department, are to be submitted to the committee late this week. Then there will begin another revision of the war revenue measure, probably resulting in an increase of the bill's gross tax levy by from \$350,000,000 to \$1,500,000,000. Further credits may also be authorized in the form of bonds or indebtedness certificates.

Besides the additional sums needed for the American war program, Secretary McAdoo told the Senate committee that the \$3,000,000,000 authorized for loan to the allies probably would last only until October, and that about \$2,000,000,000 for their further assistance would be needed. Provision for this, however, is not planned in connection with the pending revenue legislation. It probably will be considered at the next session.

The secretary made no recommendation as to what part of the total should be raised by taxes and what part by bond issues or other credits. It was reported, however, that the Treasury Department would favor raising \$1,000,000,000 more than had been planned in taxes, making the tax bill total \$2,670,000,000.

HUGE ARMY OF FLIERS SOON TO FIGHT GERMANY

President Wilson Signs Bill that Will Put 20,000 Fighting Planes in the Air

Washington, D. C., July 24.—The \$540,000,000 airplane became a law today, with President Wilson's signature.

This immense appropriation is only the beginning of preparations for the campaign intended to overwhelm Germany from the air. More than 20,000 planes are to be built as a first increment and there will be many thousands of aviators. The first task will be the instruction of the vast army of American fliers.

Germany, realizing the danger of the air campaign, already is feverishly building airplanes to fight the fleets coming to overwhelm her. The element of speed, therefore, is foremost in building the American fleet. This feature was emphasized today in a statement by Howard E. Coffin, chairman of the Aircraft production board of the council of National defense.

RUM SPEEDS THREE SHOTS

Miner Shoots Neighbor, Child and Self in Domestic Quarrel

Johnstown, Pa., July 24.—William Beal, miner at Coal Run, Somerset county spent today in Meyersdale or a spree, and returned home and quarreled with his wife, who took refuge at the house of Conrad Henning.

Beal accused Henning of harboring the woman, and in the scuffle that ensued shot and killed Leona, 8 year-old daughter of Henning, and wounded Henning three times.

Beal then turned the weapon on himself, but the bullet missed his heart and came out his back. Both men are expected to die, Beal being lodged in jail at Somerset.

SUES HOTEL ON LOST ARM

Fails to Make Trolley Company Pay, Because He Was Drunk

Lancaster, Pa., July 24.—Joseph M. Vickers has sued H. Galen Fritz, hotel keeper at Quarryville for \$15,000 damages. Vickers alleges that he was sold liquor at that hotel until he was made drunk. He was ejected from a trolley car because of his condition and shortly afterward was struck by a car, thrown to the track and his right arm was severed.

Vickers sued the local traction company, but it won the suit because he was drunk when hurt.

CURWENSVILLE

Mrs. William Hike and two children of Pittsburg are visiting at the home of Mr. and Mrs. Howard McCloskey of Ridge avenue.

The adult Bible class of the Presbyterian church celebrated their anniversary by serving a dinner to the class at noon today.

Reuben Schurr of Ridge avenue who has been on the sick list for some time, suffering from rheumatism and heart trouble, was taken to the home of his parents, Mr. and Mrs. M. J. Schurr at Home, Indiana county.

Mrs. George Milliner, Miss Virginia Milliner and Mrs. R. H. Munson, who have been visiting relatives in town several days, returned to their home in Philipsburg last evening.

Coping's carnival has completed its week stay in Curwensville and will undoubtedly be welcomed back another year. The crowds that attended all seemed pleased with the attractions offered and the Rescue boys will add better than \$400 to their treasury as their share of the proceeds.

Our Former German Ambassador, James W. Gerard, Says:

JAMES W. GERARD
Late United States Ambassador to the German Empire

"I AM writing what should have been the last chapter as the foreword of this series of articles, because I want to bring home to our people the gravity of the situation; because I want to tell them that the military and naval power of the German Empire is unbroken. Americans do not grasp either the magnitude or the importance of this war. . . . There is far greater danger of the starvation of our allies than of the starvation of the Germans. . . . We are engaged in a war against the greatest military power the world has ever seen; against a people whose country was for so many centuries a theatre of devastating wars that fear is bred into the very marrow of their souls, making them ready to submit their lives and fortunes to an autocracy which for centuries has ground their faces, but which has promised them as a result of the war not only security, but riches untold and the dominion of the world; a people which, as from a high mountain, has looked upon the cities of the world and the glories of them and has been promised these cities and their glories by the devils of autocracy and of war. . . . We stand in great peril, and only the exercise of ruthless realism can win this war for us. . . . If we had stayed out and the war had been drawn or won by Germany we would have been attacked, and that while Europe stood grinning by. . . . I TELL SOMETHING OF THE REAL GERMANY not only that my readers may understand the events of the last three years, but that they may judge what is likely to happen in our future relations with that country."

From Foreword to "My Four Years in Germany," by former Ambassador James W. Gerard, which will be published as a serial by the Philadelphia Public Ledger, beginning with the issue of Sunday, August 5. Order the Public Ledger from your carrier, or send order with name and address to the Public Ledger Company, Box 1526-C, and carrier will be notified.

Arizona Girl Who Followed Husband to France

Mrs. Hazel Carter of Douglas, Ariz., is on her way home after a desperate attempt to get into the trenches in France with her husband while she was disguised as an American soldier. She smuggled her way on to the train that took him to New York and then on to the transport which took him to France. But they caught her before the voyage finished and she was not permitted to land. She was sent back to Hoboken, N. J., and there she posed in her army uniform in front of the poster which demands men for the army.

ON THE SCREEN

"BROKEN CHAINS"

Special at the Globe Theatre Today

The ambition of every producer of motion pictures is to present the old story of love—in some new, thrilling and unique manner. No remark has ever stood the acid test of the cynics so successfully as "Love will find a way." In "Broken Chains" something happens, and this particular something provides a new vehicle for future romance. It is one of those beautiful southern stories that reminds us of life's higher elevation. It is a thrilling drama of modern women and leaders of men—big men. There is nothing in this story to hurt your feelings, but there is much to entertain those who are looking for good pictures.

"THE SAINT'S ADVENTURE"

The Rev. Paul Manson, pastor of the fashionable St. Marks Church, is ordered to the country for his health by his physician. While he is sojourning in a lumber camp with Wilks, his guide, he reads of his "sudden death" in his home-town newspaper.

The Rev. Manson has longed to clean up the slums of his city, and decides to return incognito, and do so.

Upon his return he is met by a street urchin, Sid Farley, who recognizes him as his missing father, Joe Farley. Rev. Manson is recognized by the boy's mother, also, as her husband, and he does not deny it.

Under the guise of Joe Farley, Rev. Manson begins the work of uplifting the slums district. Though he does not live at Mary's home—declaring he is tired of her—Manson, or Farley, gradually recognizes her good impulses and falls in love with her.

Manson has just triumphed over an evil political ring in the slums when he is recognized by Mrs. Sewell Wright as the supposedly dead Rev. Manson. But having attained his ambition in the slums he remains there, marrying Mary.

Kerensky Given Power To Enforce Order

Loyal Russians to Turn Guns On Traitors to Their Country

By Wm. G. Shepherd
(United Press Staff Correspondent)
Petrograd, July 24.—Representatives from all Russia late last night unanimously approved giving full authority to the Russian provincial government.

Russia will shoot down all traitors and mutineers at the front and German spies in her cities.

"Unlimited power was given to the new people's cabinet," it was declared today.

Kerensky arrived at the front today and is expected to order all loyal soldiers to shoot without mercy such of their fellow soldiers who yield to German propaganda and start mutiny. The rigid policy is the people's own plan.

The Russian Workman's and Soldier's congress formally approved it. A proclamation was issued declaring that it was traitorous to disregard the order. Petrograd is hoping that Kerensky will again make peace at the front.

OBITUARY

MRS. RACHEL TILGER

Another of our oldest residents has been called to her reward. Mrs. Rachel Tilger, daughter of Robert and Rachel Beers, was born in Boggs township, Clearfield county, Pa., Nov. 6, 1821, and died July 21, 1917, at the age of 96 years, 8 months, and 15 days. Married to Christian Souders in 1839, she went west with him in 1843, traveling overland as far as Pittsburg and then down the Ohio river by boat to Missouri, where she lived for 53 years. A few years after reaching their new home her husband died of yellow fever, leaving her with four small children: George Souders, of Texas; Mrs. Ellen Kratz, of Iowa; Mrs. Hannah Norris, of Missouri; and Mrs. Kate Stubbs, of Camden, N. J.

In 1852, she married John R. Tilger,

who died of fever at Nashville, Tenn., in 1864, while working for the United States Army. The five children of this union are living in different parts of the west: Herman in Texas, J. R. in Missouri, J. A. in Washington, H. W. and Mrs. Mary Dulin in Missouri.

The mother returned to Pennsylvania and Clearfield county in 1896, making her home with her nieces, Eliza and Nancy Waring, near Philipsburg, very much an invalid during the last few years, but the recipient of their devoted care. A member of the Methodist Episcopal church from girlhood, she loved and trusted her Savior thru all the vicissitudes of her long life.

The funeral services were conducted at the home of the Misses Waring, Monday evening at 6:30 o'clock, by pastor, Rev. F. E. Hartman, of Wallacetown, assisted by a former pastor, Rev. O. B. Poulton, of Altoona. The text used was 1 Cor., 15:55-57, beginning "O death, where is thy sting?" The hymns used were two of mother Tilger's favorites: "Nearer My God to Thee" and "Jesus, Lover of My Soul." Interment in Mock's cemetery near Blue Ball. The pall-bearers were all nephews except one.

Her children present at the funeral were: Herman Tilger, of Texas and Mr. and Mrs. Henry Tilger, of Missouri. Other people from out of town were Mr. and Mrs. McKee and Mrs. Otter, of Clearfield; also, Mrs. Merritt, George Beers and Mr. and Mrs. Heller.

Will Soon Be Ready To Examine Recruits Sheriff Can't Serve

Blanks Received and Board Held Preliminary Meeting While Awaiting Successor To Sheriff McCloskey

FIRST CALL LIKELY BY END OF THE WEEK

The blanks for use of the exemption boards arrived in Clearfield yesterday. Following receipt of these and other documents Messrs. McCloskey, Stewart and Dyer of the local board, held a brief session and talked over plans for the work.

Sheriff McCloskey announced to the other members his ineligibility under the law, and as no successor had been named not much business was transacted.

The Sheriff said that while he would have been glad to serve he appreciated the escape from the exacting duties of exemption board membership. The board has no idea who his successor may be. John M. Bain will be clerk to the board.

Dr. Jackson of Oseola, of District No. 3 was present, and took part in the discussion as to the plans and duties of the boards. The rule regarding the age limit of members of the board applies in equal measure to all extra examining physicians and it is going to be some job getting the recruits examined. The doctors will not be expected to work for nothing, however, as under the draft law they will receive four dollars for examining the first ten men and ten cents apiece for each additional man.

Local registrars have requested the board to employ no one armed physicians.

The official notice for men who are to appear for examination are headed: "Notice to Call and to Appear for Physical Examination." After the name and address of the registrant the notice adds:

"You are hereby notified that pursuant to the act of Congress approved May 18 1917, you are called for military service of the United States by this local board from among those persons whose registered cards are within the jurisdiction of this local board." Then follows the serial number of the registrant and the order in which it was drawn. The notice also sets the time and place for the examination.

Further instructions provide that "Any claim for exemption or discharge must be made on forms which may be procured at the office of the local board, and must be filed at the office of this board on or before the seventh day after the date of mailing of this notice." The attention of the registrant is called to the penalties provided for violation of the act. That there might be no mistaking on this score, the section of the act relating to penalties is printed on the reverse side of the form.

The Exemption Blanks
Two blanks are provided for application for exemption. One is to be used in personal application and the other by some person dependent upon the registrant in question for support. Under this classification come, first, a married man with wife or child dependent upon his labor for support; second, son of a widow dependent upon his labor for support; third a son of aged or infirm parent or parents dependent upon his labor for support; fourth, a father of a motherless child under 16 years of age dependent upon his labor for support; fifth a brother of child (or children) under 16 years of age with neither father nor mother and dependent upon his labor for support.

Occupations on which exemption may be applied for as listed in the form, read as follows: A county or municipal officer; a custom house clerk of the United States; a person employed by the United States in the transmission of mails; an artificer or workman employed in an arsenal, armory or navy yard of the United States; an employee in the service of the United States necessary to the adequate and effective operation of a department commission, board, bureau, division or branch of the government; a licensed pilot; a mariner actually employed in the sea service of a citizen merchant within the United States.

Another form is designed to cover cases where a registrant is temporarily physically deficient. When this blank, which excuses the registrant

from immediate military duty, is filed out by the board, a time limit is set in which the holder must return to district headquarters for re-examination. If the temporary physical disability is still in evidence, the board may grant another reprieve.

The surprise of the official record is the fact that the missing number indicated by the drawing of a blank capsule as number 10,004 was located as serial number 5794. It was placed last in the master sheet and becomes liability number 10,500. Number 2780, drawn as No. 10,498 was found to be duplicated and was stricken out.

When the official record was finally completed it was found that there had been six errors made in the first report of the drawing which affected registrants in District No. 1. These drafted but whose numbers were not published on account of the errors mentioned are as follows: 2695 Sinfelt, John Carl, Munson 1179 Mariano, Petricia Clearfield 1121 Bailey, Joseph Paul, Clearfield 1143 Fetzer, Andrew Sylvester, Cld. 570 Cocciatto, Vittalonia, Clearfield. 538 Gieswhite M. Roy, Clearfield.

Following are the new army regulations as to height, weight and chest measurements:

Three Ohio Socialists Sentenced To Prison

Most Prominent Men in State Bod. Convicted of Assisting Slackers

(By United Press)
Cleveland, Ohio, July 25.—Three Ohio Socialists, prominent in the national party were sentenced in Federal court today to serve one year in the work house for aiding a "slacker" to escape registering for the draft army. They are C. E. Ruthenberg, Socialist candidate for mayor of Cleveland; Alfred Wagenet, state secretary of the party and Charles Baker, state organizer.

LET IT TO THE IRISH

London, July 25.—Ninety odd Irishmen met behind closed doors today to undertake settlement of the Irish question. The meeting represented the most striking efforts ever made to dispense of the issue, and is believed to offer greater hope than any previous one since it is in the hands of the Irish themselves.

Secretary of War Baker, Blindfolded, Takes First Number in Draft

Secretary of War Baker, in the presence of General Crowder and members of the Senate and House military affairs committees, drew the first number of the great draft when he took out from the box the first black capsule. It was number 258.

Sixth Day Of German Drive Is Futile

Ladies Highway Continues To Be Objective Of Prince's Army

(By United Press)
Paris, July 25.—Once again French troops fought back powerful German attacks last night against the Calvario plateau—the sixth successful night in which the Germans have vainly tried to penetrate through to the Lady's Highway.

"The Germans bombarded violently and launched an attack at five o'clock against the French gains yesterday, the war office statement said. The French strengthened our gains. Around Hurtetbise and Cornillet German attacks were fruitless.

A REAL WAR BRIDE

The grizzled war god Mars had to lower his colors to chubby little old Dan Cupid yesterday afternoon when Harry E. Thompson, of Elizabethtown a member of Co. L of the Eighteenth Regiment N. G. P., and located as a guard at Shawville tunnel for some time, in company with Miss Stella B. Shaffer, of Curwensville, hid themselves to the paragonage of Trinity M. E. church and had Rev. W. W. Hartman pronounce the fateful words which made them man and wife. The young couple were unattended, the only witness to the ceremony being the bride's mother.

ANOTHER SHAKEUP COMING

Washington, July 25.—There is to be one more big reorganization and then Uncle Sam will settle down to complete his first year of the war program. President Wilson is preparing to announce changes in the present Council of National Defense.

A WAR MESSAGE

Washington, July 25.—America must give her all if she would turn the war fortune in Europe. That is the solemn emphatic message the returning officers bring back from there. A dead-lock is the only thing in sight on the western front. They have reported to the war college that the outlook is anything but optimistic and privately they say that the United States wants to awaken right now or the Germans will be the virtual victors. The Russian situation they said is practically hopeless. With Germany calling out more men for next spring the officers think that America must realize that the war will be long and bitter and that money and men must be given unstintingly.

COLBY NOMINATION HELD UP

Washington, July 25.—Bainbridge Colby's nomination as a member of the Shipping Board was held up today by the Senate Commerce Committee at the request of the two New York senators pending investigation. The committee reported favorably the nomination of Edward Hurley to be chairman of the Shipping Board. Senatorial gossip paid attention to Colby's alleged political hitch. The New York senators will be consulted as to his status.

Thirty Day Dry Drive For Western Penna.

Automobile Tour Planned by Heads of Movement For Dry Nation

(By United Press)
Harrisburg, July 25.—Prohibition state chairman B. E. Prugh today announced that the state committee will conduct a thirty days' drive for "permanent nation wide prohibition" in Western Pennsylvania starting September 6. Dr. Prugh and E. W. Crotchiwell of California, will make the tour by automobile. One or more speeches will be made each day until October 5. The week starting September 6 will be spent in Allegheny county. Eleven other counties will be visited later.

BOTH LOST THE RACE

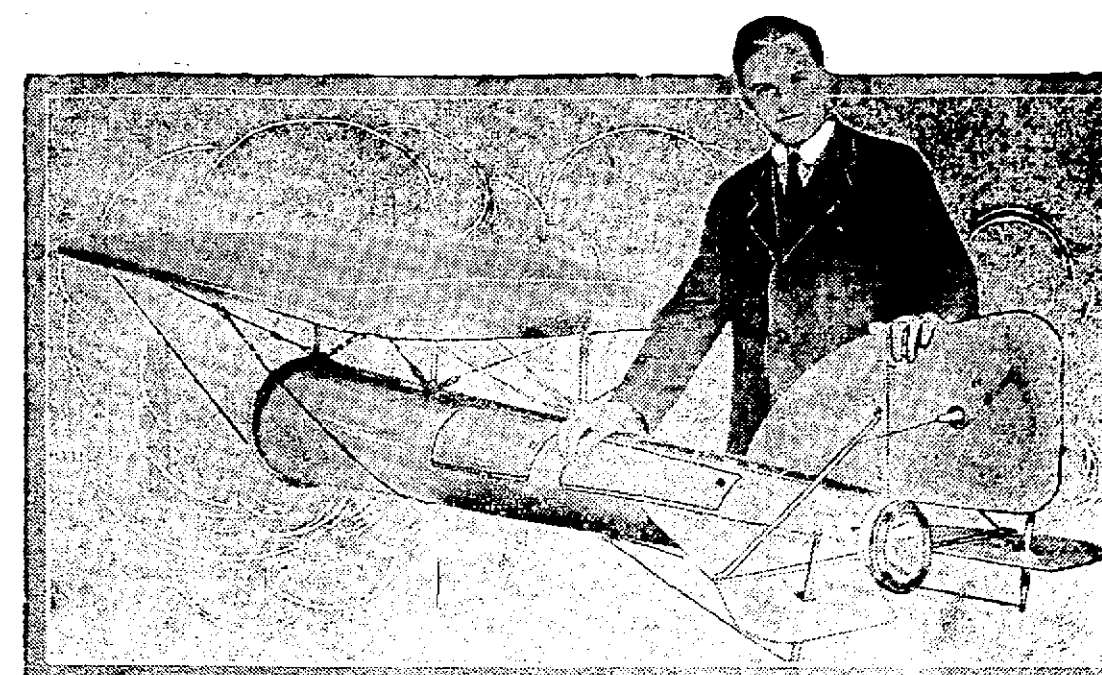

A couple of local young men who had their "daddys" cars out for an airing yesterday afternoon decided on a little speed brush in order to demonstrate the abilities of their cars. They were unfortunate in selecting their race course and in consequence both lost a \$10 fine and costs. The matter was called to the attention of the Burgess and police by citizens who witnessed the contest and the young men were given until tomorrow afternoon to settle.

When they dashed past the postoffice it took just three people to see them. The first fellow to say "here they come!" the second, "here they are," and the third "there they go," and they were going some you bet.

An Airplane Torpedo to End the War

G. F. Russell has just offered the government an invention, which, if successful, will have a remarkable effect on the fighting in Europe. He insists he has discovered a method of sending torpedoes through the air from the ground or from an airplane. These he says can be controlled by wireless so they will drop on the spot picked out.

GREAT INCREASE IN RECRUITING THRU NATION

Chicago Reports Increase Of Over Seventy Per Cent. and New York Fifty Per Cent.

MARINES IS CHOICE OF MEN

(By United Press)
New York, July 25.—American men are rushing into war service. Unprecedented enlistments in the army, navy and marine corp is sweeping the country. Men whose names are way down the master list who believe they will not be called into service soon are enlisting. The first rush began immediately after draft day. Reports gathered by the United Press today showed a gain in recruiting everywhere. In addition to men who are away down the list men who are the first to be called are volunteering in order that they may select the branch of service in which they will fight. During the past two days 333 men have volunteered, been examined and sent to Fort Slocum, New York. In New York this is an increase of 50 per cent. In addition to those accepted there have been many more applicants and many more still coming. Colonel Walsh in charge of the recruiting said, "Chicago reports 300 during the past two days, an increase of 70 per cent. Enlistments in the marines has increased 400 per cent. Milwaukee reports a score who want to join the National Guard. Their guard quota is filled, however, and new companies will have to be formed if the men are accepted.

Thursday Visitors Day at Camp Bonarr.

Special Program of Athletics And Aquatics For The Day

Thursday, the 26th, is visitors' day at Camp Bonarr where thirty-five boys from the Young Men's Christian Associations of Punksutawney, DuBois and Clearfield are encamped. The weather has been delightful for this outing and everyone seems to be having a splendid time. The general health of the boys has been good. Sunday was a day much enjoyed by all the campers. Dr. Reeve addressed the boys and leaders in the late afternoon and this brief service is one of the new features with this year's camp was heartily appreciated. A number of boys have already learned to swim and the aim is to teach all to swim before camp is over. Life saving is being taught to the older boys. Parents and friends are cordially invited to spend Thursday at camp at which time a special program of athletics and aquatics is being given.

MILITARY DANCE A SUCCESS

The military dance given at The Dimeling last evening under the auspices of Company L, of the Eighteenth Regiment was a highly successful affair. More than one hundred couples enjoyed the hospitality of the soldier boys and gayly tipped through the seductive mazes of the terpsichorean art. The hall room presented a real military aspect. Old Glory occupied the place of honor throughout the hand some assembly hall, while rifles and soldiers' trappings generally adorned the walls, the spick and span uniforms of officers and men adding the real finishing touch to the scene. Weiler's Phippsburg orchestra furnished the music.

About fifty of the friends of James Young who was home on a three day furlough from Indiana gathered at his home on McBride street last evening and tendered him a most splendid party. Plenty of gayety was had by all. Dancing, games and music helped the young people enjoy a most delightful evening. Delicious refreshments were served which added much to the pleasure of the evening.

FAREWELL ENTERTAINMENT

We wish to thank everyone for their assistance in making the sale this year such a success, especially Mrs. Augusta Krutzer, chairman of ticket selling committee. The few tickets unsold are all that will be sold, and it should happen that on Thursday noon there are some unsold, they will be cancelled, and not sold. We believe, however, that by tomorrow no tickets will be obtainable. Buy at once.

Dr. Piper's bookkeeper will be at his office until August 4th, daily, except Sundays from 9 to 11 a. m. and from 2 to 6 p. m. for collection of all outstanding accounts.

NOTICE

100,000 MEN TO BE IN EUROPE BY XMAS

Balance Of Big New Army Will Be Sent So That 600,000 By September 1918

WE FACE LACK OF TRANSPORTS

Washington, July 25.—Six hundred thousand Summies is the largest number the United States can send abroad before September 19 1918. This was stated semi-officially today. It was also declared that 100,000 men will be the number in Europe by January. The first of the new national army can scarcely be in camp before October 1 at the present rate of camp construction.

It takes practically one year to turn a civilian into a good soldier. Hence the second section of the new national army will not be called on before next summer it is believed. Lack of shipping facilities with which to move the troops across the Atlantic is the reason for the pessimistic outlook.

He explained that he could not continue to serve because he was in full accord with Denman in all matters during the controversy.

Last Chance To Buy Chataqua Tickets

Committee Will Complete Their Sales Tomorrow Afternoon

This statement is made in good faith. Thursday noon closes the sale of season Chataqua tickets. After that time you will pay the regular admissions at the gate; thirty cents for the afternoon performance and fifty and seventy five cents for the evening program. If you buy a season ticket the cost is about fifteen cents a performance!

The town was divided into twenty-five districts, and fifty sellers canvassed the territory to give everyone in town the opportunity to buy. Our contract, backed by over one hundred of the leading men and women of the town, obliged us to sell \$1500 worth of tickets. If we sold that amount, twenty-five adult tickets were to be given to the committee, and the \$50 realized from the sale of these would go to the Chataqua organization of Clearfield. Monday evening the returns showed a sale of \$1446 and up to the hour this copy goes to press, the amount reaches the quota of \$1500. That means that the only available tickets are the twenty-five as a bonus for the Clearfield committee of Chataqua. These will be quickly sold, and pursuant to the action of the committee, this money will be given to the guarantors of three years ago who had to pay \$10.40 each on account of the failure of the ticket sale reaching the contract amount of \$1500. We are glad to return this money to the ones who stood by the Chataqua the year it failed to reach the required amount of ticket sales.

We wish to thank everyone for their assistance in making the sale this year such a success, especially Mrs. Augusta Krutzer, chairman of ticket selling committee. The few tickets unsold are all that will be sold, and it should happen that on Thursday noon there are some unsold, they will be cancelled, and not sold. We believe, however, that by tomorrow no tickets will be obtainable. Buy at once.

THE LIBERTY BONDS AND THE FARMER

It has been repeatedly pointed out that in purchasing Liberty Bonds the farmers of the United States were furnishing the means to their best customers to purchase the products of their farms. Much of the proceeds of the Liberty Loan, both that used by the United States Government and the amount loaned the Allies, is to be expended in purchasing food and supplies for their armies from the farmers of the country. There are other reasons however that make the Liberty Loan Bonds especially desirable investments for farmers.

A safe investment is particularly suited to a farmer because he is in most instances at a distance from bond markets and not in position either to know of or immediately act upon information of matters affecting the value of bonds. The Liberty Loan Bonds are invincibly safe, backed as they are by the resources of the richest nation in the world and the faith and credit of a people who have always respected their obligations, and they are of stable value and liable to little or no fluctuations in market value.

The farmer is a busy man and often has neither the time nor the opportunity to study the questions of finance and bond values. The Liberty Loan Bond being a bond about which there can be no question, he can rest assured always that he has made no error in judgement.

The farmer often feels the need of ready cash before the harvesting of his crops. The Liberty Loan Bond puts in his hand a security on which he can always borrow money and at a rate as low or lower than he could borrow on any other security and with less trouble.

There is another aspect of this investment in Liberty Loan Bonds that will appeal to every true American. He is supporting the Government, he is supporting our soldiers in France and he is doing his duty as a citizen when he invests in Liberty Bonds.

AS TO THE AVERAGE WOMAN

"If the average housewife would only take the time to study scientific house management it would be of vast benefit to the country."—One of the Conservationists.

She's out of bed by half past six; she sees the children dressed;

She cooks the old man's ham and eggs, and gets his trousers pressed;

And when at last he's off to work she dusts and sweeps and mends

And toils around the house till twelve, at sundry odds and ends.

Then lunch, three hungry mouths to feed, and then a trip down town

To save deliveries and keep the cost of living down.

Then dinner time, then darning socks, without a moment's pause;

Too bad she has no time to learn economic laws.

With clothes to make and meals to plan and ailing kids to mind,

And schemes to feed the family and not to get behind.

With butcher's bills and baker's bills and grocer's bills to pay,

And youngsters wearing out their shoes, or something every day,

With jam and jelly to put up against the winter's need,

And plants to hoe and dig and spray, and garden beds to weed;

Too bad she hasn't time to glean the latest information

Loans When You Need Them

Business men must have a bank that is, at all times, able to lend them their needs.

The County National Bank keeps its funds in such shape that it is always in a position to make advances to its customers as required.

The borrowing ability of any customer up to the limit set by the banking laws, is determined only by his worthiness of credit, and the value of his account to the bank.

The accounts of business men are invited.

At night with all the kids abed, she frets her troubled soul About the lacking wherewithal to get the winter's coal. For on the average salary that's paid the average man To keep a household clothed and fed takes many a scheme and plan.

Yet cheerfully she goes along throughout each busy day And usually by Christmas time there's something laid away—

A little something in the bank, the load of debt to lift; Too bad she hasn't time to learn of scientific thrift!

TWO CHAMPIONS WHO WILL FIGHT FOR TITLE

JOHNNY KILBANE

BENNY LEONARD

Benny Leonard, champion lightweight of the world, and Johnny Kilbane, champion featherweight of the United States, will meet July 25 for the lightweight championship of the world at Shibe Park, Philadelphia. If Kilbane knocks out Leonard he will win the lightweight championship. But if Leonard knocks out Kilbane he will win nothing but money and honor.

Second Crop National Guard Called at Once

Will be Given Intensive Training at Armories Until Camps Ready

Washington, July 24.—The United States tomorrow will call out its second group of National guard for intensive training. Twenty states including New England a former foe of the south, will respond to the call. The guardsmen will be held at their armory or at the state concentration camps until the southern camps are ready, as there is still much work building wooden kitchens and mess halls and the like—some of the troops at least will not get south for a month. None of the first guardsmen called out have moved yet, but it is believed they will move next week.

How It Feels To Fight A Sub By One Who Tried It

What it means to sustain and foil submarine attacks has been picturesquely described by an American sailor who has been through the experience. I give his own written words as they appeared in a letter from "A Port in France."

"On the afternoon of Tuesday, June 26, we of the gun watch who were not on duty were standing by or sitting reading the guns.

"It was exactly 1:35 o'clock when from the foretop lookout came the shrill cry of 'Wake, ho! Submarine, sir!'

"The officer on the bridge immediately replied, 'Where away?'

"Broad on the starboard beam, sir," was the answer.

"The officer of the deck uses his glasses, bawls an order. The feeling of tiredness leaves the idlers around the guns. The gong rings for general quarters, the bugle calls every man to his station, and in ten seconds every man is at his post, the guns loaded and trained.

"While this is going on the ships spread out in the form of a Chinese fan, a destroyer at each end of the fan and another destroyer and our ship at the apex or head. The submarine is somewhere below us, submerged at around thirty feet.

"There is an order that fairly crackles, a hiss and a destroyer drops a depth-bomb from her stern. It is set for sixty feet and goes down like a lump of lead.

"Boom! There is a muffled roar from under the waves. We shake and quiver from the concussion.

We Came, Saw and Sank

"That is all. Then the destroyer runs up her signals to the admiral's

flagship, 'we hope we got her.'

"Of course, no man was nervous—that is, he didn't admit he was, but one man remembered owing a half a dollar and wanted to square the debt before he 'went.' Another reached for a piece of hardback he had stowed in his blouse and nibbled away at it while awaiting orders.

"Keeping a sharp lookout while we circled the spot, we were finally rewarded by seeing the bubbles of air and oil which soon covered the sea all around us. Planking such as is used in between the layers of submarines also rose to the surface in quantities. We added another version to the old saying of 'Veni, vidi, vici.' The Liberty boys can honestly say: 'We came, we saw, we sank!'

"And so clearing the sea before and aft, we landed the first expeditionary force of thousands of men safely 'somewhere in France.'

"The letter will give an example of the high class of men in the American Navy, a fact that was remarked on all sides during the recent visit of the sailors to Paris. To my own knowledge some of the latest additions to the ranks of our sailors who have enlisted as ordinary seamen include Harvard, Yale, Princeton and Cornell graduates.

STOP REVENUE BILL TO ADD TO FIGURES

War Department Likely to Send 1,000,000 Men to Europe as Soon as They are Ready

Washington, D. C., July 24.—Plans worked out in Congress for raising war revenue were overturned today by announcement of forthcoming additional estimates for war expenditures aggregating more than \$5,000,000,000, principally in anticipation of assembling a second army of 500,000 men under the selective draft.

Secretary McAdoo, at a special meeting of the Senate Finance committee, revealed that the war department alone is preparing estimates to cover additional expenditures of nearly \$5,000,000,000, and asked the committee to hold up the \$1,670,000,000 war tax bill until the detailed estimates of all departments are submitted. The committee agreed to the request and pigeonholed a report on the measure which it had planned to submit today.

The new estimates, including \$500,000,000 additional for the Shipping board and \$100,000,000 for the navy department, are to be submitted to the committee late this week. Then there will begin another revision of the war revenue measure, probably resulting in an increase of the bill's gross tax levy by from \$350,000,000 to \$1,500,000,000. Further credits may also be authorized in the form of bonds or indebtedness certificates.

Besides the additional sums needed for the American war program, Secretary McAdoo told the Senate committee that the \$3,000,000,000 authorized for loan to the allies probably would last only until October, and that about \$2,000,000,000 for their further assistance would be needed. Provision for this, however, is not planned in connection with the pending revenue legislation. It probably will be considered at the next session.

The secretary made no recommendation as to what part of the total should be raised by taxes and what part by bond issues or other credits. It was reported, however, that the Treasury Department would favor raising \$1,000,000,000 more than had been planned in taxes, making the tax bill total \$2,670,000,000.

HUGE ARMY OF FLIERS SOON TO FIGHT GERMANY

President Wilson Signs Bill that Will Put 20,000 Fighting Planes in the Air

Washington, D. C., July 24.—The \$540,000,000 airplane became a law today, with President Wilson's signature.

This immense appropriation is only the beginning of preparations for the campaign intended to overwhelm Germany from the air. More than 20,000 planes are to be built as a first increment and there will be many thousands of aviators. The first task will be the instruction of the vast army of American fliers.

Germany, realizing the danger of the air campaign, already is feverishly building airplanes to fight the fleets coming to overwhelm her. The element of speed, therefore, is foremost in building the American fleet. This feature was emphasized today in a statement by Howard E. Coffin, chairman of the Aircraft production board of the council of National defense.

RUM SPEEDS THREE SHOTS

Miner Shoots Neighbor, Child and Self in Domestic Quarrel

Johnstown, Pa., July 24.—William Beal, miner at Coal Run, Somerset county spent today in Meyersdale or a spree, and returned home and quarreled with his wife, who took refuge at the house of Conrad Henning.

Beal accused Henning of harboring the woman, and in the scuffle that ensued shot and killed Leona, 8 year-old daughter of Henning, and wounded Henning three times.

Beal then turned the weapon on himself, but the bullet missed his heart and came out his back. Both men are expected to die, Beal being lodged in jail at Somerset.

SUES HOTEL ON LOST ARM

Fails to Make Trolley Company Pay, Because He Was Drunk

Lancaster, Pa., July 24.—Joseph M. Vickers has sued H. Galen Fritz, hotel keeper at Quarryville for \$15,000 damages. Vickers alleges that he was sold liquor at that hotel until he was made drunk. He was ejected from a trolley car because of his condition and shortly afterward was struck by a car, thrown to the track and his right arm was severed.

Vickers sued the local traction company, but it won the suit because he was drunk when hurt.

Our Former German Ambassador, James W. Gerard, Says:

JAMES W. GERARD
Late United States Ambassador to the German Empire

"I AM writing what should have been the last chapter as the foreword of this series of articles, because I want to bring home to our people the gravity of the situation; because I want to tell them that the military and naval power of the German Empire is unbroken. Americans do not grasp either the magnitude or the importance of this war. . . . There is far greater danger of the starvation of our allies than of the starvation of the Germans. . . . We are engaged in a war against the greatest military power the world has ever seen; against a people whose country was for so many centuries a theatre of devastating wars that fear is bred into the very marrow of their souls, making them ready to submit their lives and fortunes to an autocracy which for centuries has ground their faces, but which has promised them as a result of the war not only security, but riches untold and the dominion of the world; a people which, as from a high mountain, has looked upon the cities of the world and the glories of them and has been promised these cities and their glories by the devils of autocracy and of war. . . . We stand in great peril, and only the exercise of ruthless realism can win this war for us. . . . If we had stayed out and the war had been drawn or won by Germany we would have been attacked, and that while Europe stood grinning by. . . . I TELL SOMETHING OF THE REAL GERMANY not only that my readers may understand the events of the last three years, but that they may judge what is likely to happen in our future relations with that country."

From Foreword to "My Four Years in Germany," by former Ambassador James W. Gerard, which will be published as a serial by the Philadelphia Public Ledger, beginning with the issue of Sunday, August 5. Order the Public Ledger from your carrier, or send order with name and address to the Public Ledger Company, Box 1526-C, and carrier will be notified.

Arizona Girl Who Followed Husband to France

Mrs. Hazel Carter of Douglas, Ariz., is on her way home after a desperate attempt to get into the trenches in France with her husband while she was disguised as an American soldier. She smuggled her way on to the train that took him to New York and then on to the transport which took him to France. But they caught her before the voyage finished and she was not permitted to land. She was sent back to Hoboken, N. J., and there she posed in her army uniform in front of the poster which demands men for the army.

ON THE SCREEN

"BROKEN CHAINS"

Special at the Globe Theatre Today

The ambition of every producer of motion pictures is to present the old story of love—in some new, thrilling and unique manner. No remark has ever stood the acid test of the cynics so successfully as "Love will find a way." In "Broken Chains" something happens, and this particular something provides a new vehicle for future romance. It is one of those beautiful southern stories that reminds us of life's higher elevation. It is a thrilling drama of modern women and leaders of men—big men. There is nothing in this story to hurt your feelings, but there is much to entertain those who are looking for good pictures.

"THE SAINT'S ADVENTURE"

The Rev. Paul Manson, pastor of the fashionable St. Marks Church, is ordered to the country for his health by his physician. While he is sojourning in a lumber camp with Wilks, his guide, he reads of his "sudden death" in his home-town newspaper.

The Rev. Manson has longed to clean up the slums of his city, and decides to return incognito, and do so.

Upon his return he is met by a street urchin, Sid Farley, who recognizes him as his missing father, Joe Farley. Rev. Manson is recognized by the boy's mother, also, as her husband, and he does not deny it.

Under the guise of Joe Farley, Rev. Manson begins the work of uplifting the slums district. Though he does not live at Mary's home—declaring he is tired of her—Manson, or Farley, gradually recognizes her good impulses and falls in love with her.

Manson has just triumphed over an evil political ring in the slums when he is recognized by Mrs. Sewell Wright as the supposedly dead Rev. Manson. But having attained his ambition in the slums he remains there, marrying Mary.

Kerensky Given Power To Enforce Order

Loyal Russians to Turn Guns On Traitors to Their Country

By Wm. G. Shepherd
(United Press Staff Correspondent)
Petrograd, July 24.—Representatives from all Russia late last night unanimously approved giving full authority to the Russian provincial government.

Russia will shoot down all traitors and mutineers at the front and German spies in her cities.

"Unlimited power was given to the new people's cabinet," it was declared today.

Kerensky arrived at the front today and is expected to order all loyal soldiers to shoot without mercy such of their fellow soldiers who yield to German propaganda and start mutiny. The rigid policy is the people's own plan.

The Russian Workman's and Soldier's congress formally approved it. A proclamation was issued declaring that it was traitorous to disregard the order. Petrograd is hoping that Kerensky will again make peace at the front.

OBITUARY

MRS. RACHEL TILGER

Another of our oldest residents has been called to her reward. Mrs. Rachel Tilger, daughter of Robert and Rachel Beers, was born in Boggs township, Clearfield county, Pa., Nov. 6, 1821, and died July 21, 1917, at the age of 96 years, 8 months, and 15 days. Married to Christian Souders in 1839, she went west with him in 1843, traveling overland as far as Pittsburg and then down the Ohio river by boat to Missouri, where she lived for 53 years. A few years after reaching their new home her husband died of yellow fever, leaving her with four small children: George Souders, of Texas; Mrs. Ellen Kratz, of Iowa; Mrs. Hannah Norris, of Missouri; and Mrs. Kate Stubbs, of Camden, N. J.

In 1852, she married John R. Tilger,

who died of fever at Nashville, Tenn., in 1864, while working for the United States Army. The five children of this union are living in different parts of the west: Herman in Texas, J. R. in Missouri, J. A. in Washington, H. W. and Mrs. Mary Dulin in Missouri.

The mother returned to Pennsylvania and Clearfield county in 1896, making her home with her nieces, Eliza and Nancy Waring, near Philipsburg, very much an invalid during the last few years, but the recipient of their devoted care. A member of the Methodist Episcopal church from girlhood, she loved and trusted her Savior thru all the vicissitudes of her long life.

The funeral services were conducted at the home of the Misses Waring, Monday evening at 6:30 o'clock, by pastor, Rev. F. E. Hartman, of Wallacetown, assisted by a former pastor, Rev. O. B. Poulton, of Altoona. The text used was 1 Cor., 15:55-57, beginning "O Death, where is thy sting?" The hymns used were two of mother Tilger's favorites: "Nearer My God to Thee" and "Jesus, Lover of My Soul." Interment in Mock's cemetery near Blue Ball. The pall-bearers were all nephews except one.

Her children present at the funeral were: Herman Tilger, of Texas and Mr. and Mrs. Henry Tilger, of Missouri. Other people from out of town were Mr. and Mrs. McKee and Mrs. Otter, of Clearfield; also, Mrs. Merritt, George Beers and Mr. and Mrs. Heller.

OLD VETERAN VISITING FRIENDS

Ex-Sheriff Lewin Hoover, of Lock Haven, is a guest at the home of his nephew H. F. Ferguson, on South Second street, at present. Sheriff Hoover is well known throughout this section and has many friends in Clearfield county. He is a veteran of the Civil war, having spent three years in the field during that conflict and was one of the Pennsylvanians at Gettysburg where Lee's army was stopped at the "high tide of the Confederacy." Although four score and four years of age, Mr. Hoover is a well preserved specimen of manhood.
